

Mural Design Draft Guide

Design Mockup:

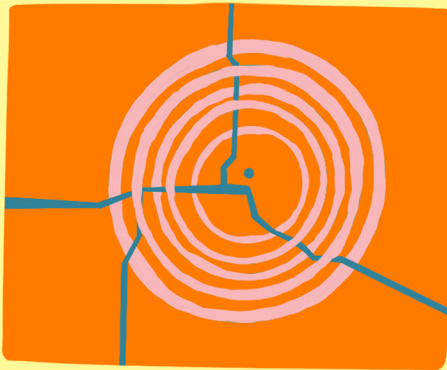

Color Ways

Themes:

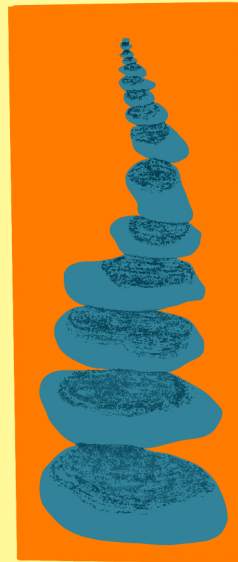

Community Strength, Resilience & Midwestern Pride

Elements of Community Strength:

"MCC on the Map"

This block provides a centered perspective displaying where the MCC can be located on the Davis county map.

"Balance" (right), various sized stones strategically stacked upon each other, reaching greater heights.

"Unity" (left), hand-holding-hand

What does it look like to build a space for collaboration, gathering, & interconnectedness? Reflecting on valuable personal experiences within community spaces I frequent, I find balance & unity are key components of a strong community.

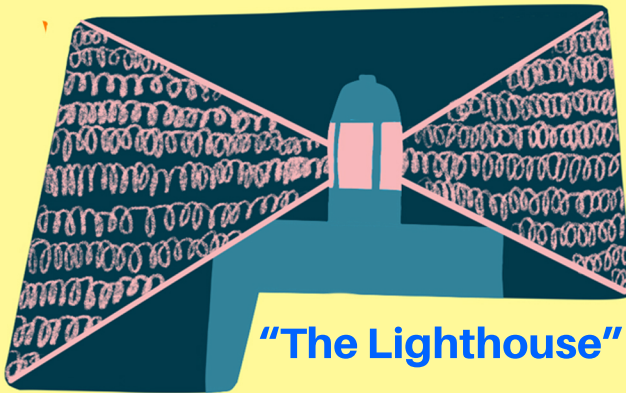

"Build Together, Grow Together"

Similar to "Balance," this block explores collaborative growth & possibility.

This block can be interpreted in a variety of ways & is intended to uplift & cultivate positivity.

Elements of Community Resilience:

"The Lighthouse"

Symbolic of providing unwavered guidance, support & hope, I designed this block as an ambiguous representation of a lighthouse. This is a nod to the MCC as a prevalent & important community resource and gathering space.

**"Build Together,
Grow Together"**

Similar to "Balance," this block explores collaborative growth & possibility.

This block can be interpreted in a variety of ways & is intended to uplift & cultivate positivity.

"The Only Way Out is Up"

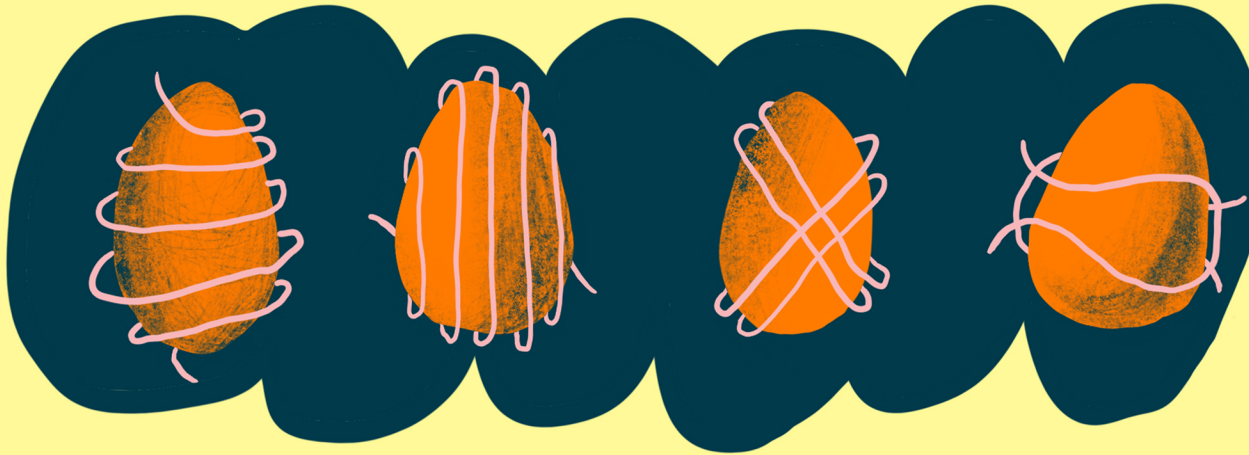

This block is intended to lead the viewer's gaze upwards without the option to look downwards. While I appreciate the concept, this design, admittedly needs refining.

"Balance"

various sized stones strategically stacked upon each other, reaching greater heights.

Elements of Midwestern Pride:

"Eggs!"

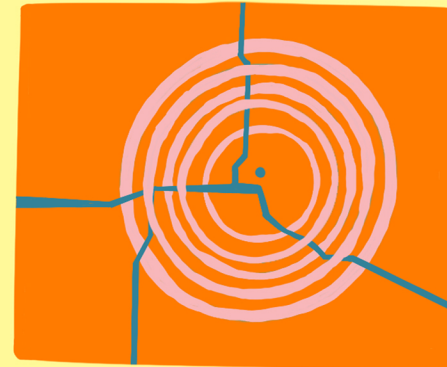

Having grown up on a farm myself, Eggs have always served as a marker for Midwestern farm life.

This design could also look great representing various sporting goods.

"Windmill"

A farmland fascination of mine growing up was windmills & the rich history of Midwestern pride embedded in them.

"MCC on the Map"

This block provides a centered perspective displaying where the MCC can be located on the Davis county map.
