

What does an IISC community partnership look like?

The IISC partnership focuses select courses and top University of Iowa faculty and students in a single community, with the goal of having a profound, transformative impact. IISC community partners can expect to receive the projects listed below and more.

TWO **PLANNING** PROJECTS

From Public Engagement to Goals, Objectives & Strategies

Planning graduate students work closely with the community to create a roadmap for the future. Examples of projects include:

- Comprehensive Planning
- Downtown Planning
- Parks & Rec Planning
- Trails Planning
- Sustainability Planning
- Housing Needs Assessments
- Neighborhood Planning
- Economic Development Planning
- Hazard Mitigation Planning & More

FIVE **ENGINEERING** PROJECTS

Engineering Designs and Cost Estimates

Civil & Environmental Engineering projects provide design alternatives and cost estimates to help move projects forward or to inform decision making. Project possibilities include designs for buildings (new and old), wetlands, trails, bridges, and more.

TWO **FILM** PROJECTS

Profiling Local Heroes

Cinema students create short film profiles of local residents who share their personal stories and convey a sense of the broader community.

ONE **LAW** PROJECT

Community Empowerment

College of Law students help clients with strategic planning, designing advocacy plans, drafting new legislation, and creating a new organization or entity.

ONE **PUBLIC ART** PROJECT

Creative Placemaking

Talented and creative art students create unique art to reflect community identity, connect with residents, and convey a sense of place.

ONE **MARKETING** PROJECT

Marketing & Branding

College of Business students produce marketing solutions through a creative, data-driven, and collaborative process.

+ ONE **GIS MAPPING & ANALYSIS** PROJECT +
+ ONE **DIGITAL LIBRARY** PROJECT + ONE **MUSEUM** PROJECT +
